📋 Objective

Flutter Developer with **2.5** years of experience building production-ready, cross-platform mobile applications for Android and iOS. Experienced in **BLoC, Riverpod, and Provider, secure authentication, end-to-end encryption, biometric login**, and real-time features using **WebSockets**. Focused on scalable, high-performance apps with **clean architecture**. Successfully deployed multiple(10+) apps to the **Play Store** and **App Store**, and actively contribute to the Flutter community by **teaching** structured courses, **mentoring** developers on real-world projects, conducting **workshops**, and guiding them through best practices and app publishing.

🧠 Skills

- **Flutter:** API integration, Web socket, Offline storage (Hive), Encryption and decryption, Push notification, Dependency injection
- **State Management:** BLoC , Provider, and Riverpod, GetX
- **Languages:** Dart, C, C++, Python
- **Firebase:** Authentication, Firestore Database, Firebase Storage, Firebase Messaging
- **Advance navigation:** AutoRoute, Navigator 2.0
- **UI/UX:** Custom Widgets, Animation, UI/UX Design Integration
- **Deployment Platforms:** Play Store, App Store (10+ apps on both stores)
- **Methodologies:** Agile(Scrum)
- **Development Tools:** Git, GitHub, Bitbucket, Jira, Open project

📁 Projects

- Auth Sync- 2025**
 - Solely designed and built the entire mobile app using **BLoC**, ensuring a smooth, secure, and easy-to-use experience from start to finish.
 - Built a **zero-knowledge, end-to-end encrypted** app to manage **TOTPs, passwords, credit cards, secure notes, and encrypted vaults**.
 - Implemented **on-device cryptography** with **AES-GCM encryption** for self encryption and **RSA encryption** for sharing items.
 - Designed a **BIP39 24-word recovery system** which is backed up in user's google drive for password recovery; hash it with SHA256 for logging in without sending password to the backend.
 - Added **TOTP and credentials import/export** via **QR codes, JSON, and TXT**, with interoperability for **GoogleAuth** and **Ente Auth**.
 - Integrated **biometric authentication** and optimistic updates for smooth experience. Try Auth Sync app: [download](#)
- Abroad Sathi - 2025**
 - Maintained a production-ready application using **Riverpod**, providing a complete study-abroad and visa solution for students.
 - Implemented **secure authentication and user management** using Firebase Authentication, including **Google and Apple sign-in**, personalized profiles, and secure data handling with **document uploads**, application tracking, **chat** services.
 - Enhanced app quality through responsive UI design, **performance optimization**, error tracking (**Sentry**), secure payments (**eSewa & Stripe**).
 - Successfully deployed and maintained Play Store and App Store deployment, managing updates, and ongoing maintenance. Link: [Abroad Sathi](#)

Books Timothy - 2023

- Built a book-reading application using **Provider** state management for the books written by Prof. Dr. Timothy Aryal with features like book categorization and **offline reading**.
- Integrated payment services: **Khalti** for android and Apple's **in app payment** system for iOS.
- Developed a cross-platform mobile app with secure login and personalized user access for a smooth and safe experience.
- Deployed on App Store and Play Store (**1k+ downloads** with **4.8-star** rating)
- Links: [Play Store](#), [App Store](#)

Saara - 2024

- An on-demand beauty service and e-commerce app featuring **online service** booking and product purchase.
- Applied **MobX** for seamless state management, integrated secure payment gateways: **Khalti** and **Esewa** for a seamless transactional experience, integrated flutter animation: Rive and built-in animations.
- **Firestore push notifications** integrated to allow for real-time updates, enhancing communication.
- Link: [Saara](#)

Experience

February 2025 – Present 2026

Vrit Technologies and Skill Shikshya

Mid Flutter Developer

- Flutter developer responsible for designing and delivering **Auth Sync** with **BLoC**, handling the complete mobile app lifecycle from architecture to production-ready implementation.
- Maintained **Abroad Sathi** with **Riverpod** state management; app serving national and international students with study-abroad services.
- Created [Abroad Sathi BDM](#) app, including **background recording** feature where clients can record audio in the background even when the screen is locked.
- Worked as a **mentor** in Skill Shikshya running multiple **classes** and **workshops**. Featured in all the social sites of **TechPana**([link](#))

February 2024 – February 2025

College Nepal (1 year contract)

Mobile App Developer

- Developed a college admin app with a focus on user-friendly design and functionality.
- Implemented MVVM architecture with Provider state management to ensure clean, maintainable, and scalable code.
- Integrated Firebase for push notifications, enabling real-time updates and communication.
- Mentored and guided interns in best practices and methodologies for mobile application development.

July 2023 – December 2023

Everestwalk Groups

Flutter Developer

- Developed and maintained real projects using flutter.
- Integrated RESTful APIs and handled data using Dart.
- Implemented state management solutions using Provider.
- Collaborated with cross-functional teams to gather requirements and define project scopes.
- Worked in an Agile/Scrum environment.

Education

2013

School Leaving Certificate (SLC)
Nepal Government Examination Board

2015

Higher Secondary Level (+2)
Higher Secondary Education Board

2016

Bachelor of Engineering: Electronics and Communication
Tribhuvan University, Thapathali Campus
